

**INVITATION TO THE PRESENTATION OF THE
WORLD DEVELOPMENT REPORT OF THE WORLD BANK 2016
DIGITAL DIVIDENDS**

The report will be presented and discussed in Rome on February 8, 2016

The venue is:

**Einaudi Institute for Economics and Finance
Via Sallustiana N. 62**

World Development Report 2016 *“Digital Dividends”* is a World Bank annual flagship report. Although the topic of the Report is technology, it is looked upon through the lens of development economics. The Report documents many compelling examples where the internet, mobile phones and other digital technologies have delivered digital dividends by boosting growth, expanding opportunities and improving services. But it also finds that the broader benefits have fallen short and have gone disproportionately to the wealthy, skilled and powerful — those best equipped to take advantage of the digital revolution (the report is available [here](#)).

Program

11.00: Introduction
